- Make this section not so wide, leave more space on the sides. Now it is too massive, it should fit one screen and be smaller

Replace 4x logo with AI generated logos in black/white – not real companies

The image shows a screenshot of the Bigposting dashboard. At the top, there's a blue header bar with the text "Active Campaigns" and "12 backlinks/day". Below this, there are three summary statistics: "247 Total Orders", "189 Live Links", and "24 In Progress". The main content area features a large orange background with the text "Place Orders, Track Progress, Get Links" in bold black font. Below this, a subtext reads: "Simple bidding system. Publishers accept, write content, publish. You track everything in real-time from one dashboard." To the left, there's a list of three active campaigns: "techblaster.co.uk" (LIVE, published 2 hours ago), "newsbreak.com" (PENDING, in review - 1 day left), and "dgmnews.com" (WRITING, writing content). A red arrow points from the "Become an Advertiser" button to the "techblaster.co.uk" campaign. Another red arrow points from the "2-4 days AVERAGE TURNAROUND" badge to the "newsbreak.com" campaign.

For You

Legal

- Button grammar error: it should be “start ordering now” – the service is not for free.
- Logos need to be replaced with something else. The color combination of yellow and blue is terrible
- Stick to colors from the logo if you don’t know what colors to use
